

AiSWEI Cloud

> Smart cloud-based monitoring system

PV Plant monitoring plays an important role in our approach to revolutionize access to solar energy. It saves you time and money by reducing PV plant downtime. Your energy generation and consumption are presented in simple and easy to read graphs for complete plant management. Real time and historical data are readily available via our cloud-based monitoring portal, allowing you to compare your current performance to past results and projected goals. AiSWEI Cloud, our new online monitoring portal, is perfect for home owners, business owners and PV developers who want to monitor their PV Plants from anywhere in the world.

Please download AiSWEI Cloud App from Apple AppStore (iOS), Google PlayStore or AiSWEI Cloud website.

Cloud-based monitoring system

Key system data on one page for easy viewing

Easy and convenient performance reporting

Centralized management of all plant data

Rapid event and yield report by email

Accessible by browser or Android and iOS apps

Locate your PV plant on the map (app version)

Easy to create PV plant by scanning QR code (app version)
